

DR. HANSON IS
GUEST OF LIONS
MONDAY EVENING

Dr. Henry W. A. Hanson, retiring president of Gettysburg college, outlined briefly his philosophy of education and reminisced about outstanding events in his 29 years in Gettysburg Monday evening in a talk before the Gettysburg Lions club at the Shetter House.

Discussing his program for a college education, Dr. Hanson listed first an adequate program in athletics and declared there is no substitute for the classroom in the training of young men and women "to think the kind of thoughts that produce the kind of men and women the world needs." He also emphasized the importance of teaching "fundamental values that produce enriching and stabilizing influences in life." He concluded by stressing the attempts made on the campus to foster "good will" and the attention given to showing students the basic role of religion in achieving a meaningful life.

Dr. Hanson told of incidents connected with the visits of Lloyd George, the royal family of Siam, and Dr. Lloyd Douglas to the campus and Dr. Hanson's part in the celebration of the 70th anniversary of the dedication of the National cemetery when descendants of Lincoln, Lee, Grant and Meade were here.

Three New Members

Dr. Hanson was introduced by Dean W. E. Tilberg who told of the great expansion in the physical equipment, the size of the student body and faculty and the improved status of the college scholastically during Dr. Hanson's administration.

President Fred S. Faber presided at the meeting with 110 members and guests in attendance.

Arthur W. Warren was received as a new member and two transfers of Lions from nearby clubs to Gettysburg were introduced: John O'Brien from Fairfield and Hansford Snead from Westminster, Md.

Colored slides of the recent minstrel show were shown to the club members and the club chorus rehearsed after the general club meeting.

Snowfall there totaled nine inches as compared with 6.8 inches here but total precipitation was 6.43 inches as against 6.86 inches here.

The average temperature at Arendtsville in March was 37.17 degrees as against 39.03 degrees here. Arendtsville's average daily maximum was 46.35 degrees and the average daily low reading was 28 degrees. Extreme temperatures for the month were 77 on April 22 and 17 on March 1 and 2.

CLUB SPEAKER
SAYS STALIN IS
CONSERVATIVE

Josef Stalin "is a brake on the poliboro rather than an accelerator," Dr. Heinz Langerhans, member of the faculty of Gettysburg college, told the local Rotary club Monday night at a meeting in the Y.

Doctor Langerhans stressed as his opinion, "that Stalin is, in comparison to the other six members of the poliboro, a conservative. He is the typical bureaucrat who hesitates to extend power swiftly because he believes greatly in control and when you expand swiftly the big problem is to retain control."

Russia, he added, "is not a dictatorship of one man, it is a dictatorship of seven, the poliboro. There are many arguments within the committee, but the world only hears of the final decisions."

Reasons For Opinion

Langerhans said his opinion that Stalin is "conservative" in comparison to the other members of the poliboro is based upon the change of the Communist movement that came about when Stalin came to power, with the world-wide aspects apparently put into second place and the development of Communist control in Russia apparently made dominant. His opinion, he added, is based also on the disappearance of Stalin, immediately after World War II, from the Kremlin and public appearances of the poliboro while Russia was changing its policy to one of seeking domination over other nations. A third reason, he said, is based upon the way he came to power through bureaucracy. Bureaucrats are traditionally opposed to great change, he added.

Since 1917 there have been 27 members of the poliboro. Of that number 11 died "unnatural deaths," the college professor said. "Up until recently it seemed that the usual method of dismissal from the poliboro was sudden death."

Gives April Schedule

Dr. Fred Shaffer introduced the speaker, Dr. Bruce N. Wolff, president of the club, presided with 62 present. Introduced as guests were Dr. William Sundermeyer and General Arthur Nevins. William Tyson presented "A Number of Rotary Facts."

Plans were announced to purchase more than 100 aerial maps of Adams county made recently by the federal government. Each aerial photograph map lists a small section of the county, and more than 100 are needed to cover the entire area.

Court house officials estimated that the map and indexing of all properties in the county may reveal several hundred properties that have never been assessed in the county because of inaccessibility or because they lay across township lines and have been overlooked by assessors.

Sutton And Kling Found Guilty
In \$64,000 Bank Robbery

New York, April 1 (P) — An all-male jury today found Willie (The Actor) Sutton and Thomas (Scup) Kling guilty of \$64,000 robbery of a Queens bank two years ago.

The jury returned its verdict at 5:45 a.m. (EST) after having the case more than 10 hours.

Kling and Sutton, a notorious bank robber and jail breaker, were found guilty of counts of robbery, burglary, assault, and grand larceny.

Sutton, 51, and Kling, 45, were charged with holding up the Sunnyside branch of the Manufacturers Trust company in Queens on March 9, 1950.

Slick, Precision Job

The robbery was a slick, precision job typical of previous robberies pulled off by Sutton.

Each of the defendants faces up to 30 years in prison. Taking into account their previous records, the penalty could be considerably stiffer.

Jurors interrupted their all-night huddle at 1 a.m. and filed back into the Queens county court room for a reading of testimony by two state witnesses. Three hours later they went back into the jury room.

The panel started its deliberations about 8:30 last night. Queens county Judge Peter T. Farrell spent 90 minutes charging the jury.

Sutton was serene as he waited for the jurors' verdict. His attorney, George Washington Herz, said his client had told him: "I think the judge's charge and all that this is the fairest trial I ever had."

Sutton and Kling were accused of pulling off the Queens bank robbery with John De Venuta, 37.

De Venuta won a separate trial at a later date by turning state's evidence and testifying against Sutton and Kling. De Venuta's testimony was the high-spot in the trial, which started two weeks ago today.

Other prosecution witnesses included bank employees who identified Sutton, Kling and De Venuta as the three bandits. The defense in cross-examination and in its direct testimony sought to shake these identifications.

Showed No Emotion

Both Sutton and Kling maintained their innocence. On the assumption that they knew nothing of the robbery, their attorneys did not call them as witnesses.

Queens county Judge Peter T. Farrell remanded the pair to jail for sentencing. No date was set.

Newsmen were the only spectators in the court room when the jury returned at 5:45 a.m.

The two defendants displayed no emotion as the jury foreman dined on counts of robbery, burglary, assault, and grand larceny.

New Group Will Try To Settle
Argument On Whether Russia Is
To Be Named A Neutral Nation

Seoul, Korea, April 1 (P) — U. S. Sabre pilots today shot down 10 Communist MIG-15 fighter planes, the second highest bag for any day in the Korean war.

The U. S. Fifth Air Force said they also probably destroyed three other MIGs and damaged 10.

The greatest number of MIGs destroyed in one day in the Korean war was 13 last December 13. Fifth Air Force Sabres destroyed 10 MIGs last January 25 but that day they scored only one probable and three damaged.

In one of Tuesday's eight separate battles, Col. Francis S. Gabreski of Oil City, Pa., commander of the 51st Fighter Interceptor Wing, became the eighth U. S. jet ace by shooting down a MIG in an ambush. It raised his total for the Korean fighting to five and one-half MIGs. Five kills make an ace.

Twenty-five Sabres ambushed 16 MIGs in the action about noon just south of the Yalu river, Manchurian-Korean boundary.

"The MIGs never saw us," said Gabreski, a leading ace of World War II. "We had a perfect 'bounce' and we dived right down their tail pipes."

Major William H. Wescott of Terre Haute, Ind., and Capt. Ivan C. Kincheloe of Cassopolis, Mich., each shot down two Red jets in the ambush.

Other kills for the day were credited to Lt. Billy D. Dobbs, Fontana, Calif.; Capt. Robert H. Moore, 1122 Voight St., Houston, Tex.; Lt. James H. Kasler, 4626 College ave., Indianapolis, Ind.; Lt. Robert W. Smith, 913 South Georgia St., Albuquerque, N. Mex., and Capt. Robert J. Love, 1227 13th St., San Bernardino, Calif.

A total of 319 MIGs and at least two of the new seldom-seen "type 15" Russian built jets were involved in the eight battles. The Allies had a little more than half that number in the air. Some of the fights lasted as long as 30 minutes. The action reached nearly seven miles up in at least one battle.

Face Another Issue

The subcommittee meeting at 11 a.m. Thursday (9 p.m. Wednesday EST) may also tackle a second key issue—whether the Reds will be allowed to repair and build airfields.

The third issue, involving exchange of prisoners, is being discussed by staff officers in secret sessions. Col. George W. Heckman reported only that "further discussions" were held Tuesday on a Red plan to release prisoners on the basis of lists already exchanged.

Both staff groups meet again at 11 a.m. Wednesday (9 p.m. Tuesday EST).

Staff officers who gave up on the Russian problem will continue working on uncompleted details of the truce supervision plans. They have been arguing mostly over what to call "Korea" and the "United Nations command" in the armistice document.

Argue Interpretation

Limitations of the Korean language are responsible for the debate over "United Nations." The Reds want to use Korean words which translate as "Allied Forces." The U.N. command wants to use Korean words for "International Allied Forces."

Sentiment is blocking agreement over what to call Korea. The Reds want to refer to it as "Chosen." The Allies want to call it "Han Huk." Both are ancient names.

The U.N. command objects to "Chosen" because that was the name the Japanese used during their 50-year rule of Korea.

The Communists want to use it partly because Korea reached its greatest glory under the Kingdom of Chosun or Chosen more than 500 years ago.

Col. Don O. Darrow told the Communists Tuesday it was "simply not a matter for argument." He said each side should be able to choose the name it likes.

CLUB SPEAKER SAYS STALIN IS CONSERVATIVE

Josef Stalin "is a brake on the poliboro rather than an accelerator," Dr. Heinz Langerhans, member of the faculty of Gettysburg college, told the local Rotary club Monday night at a meeting in the Y.

Doctor Langerhans stressed as his opinion, "that Stalin is, in comparison to the other six members of the poliboro, a conservative. He is the typical bureaucrat who hesitates to extend power swiftly because he believes greatly in control and when you expand swiftly the big problem is to retain control."

Russia, he added, "is not a dictatorship of one man, it is a dictatorship of seven, the poliboro. There are many arguments within the committee, but the world only hears of the final decisions."

Reasons For Opinion
Langerhans said his opinion that Stalin is "conservative" in comparison to the other members of the poliboro is based upon the change of the Communist movement that came about when Stalin came to power, with the world-wide aspects apparently put into second place and the development of Communist control in Russia apparently made dominant. His opinion, he added, is based also on the disappearance of Stalin, immediately after World War II, from the Kremlin and public appearances of the poliboro while Russia was changing its policy to one of seeking domination over other nations. A third reason, he said, is based upon the way he came to power through bureaucracy. Bureaucrats are traditionally opposed to great change, he added.

Since 1917 there have been 27 members of the poliboro. Of that number 11 died "unnatural deaths," the college professor said. "Up until recently it seemed that the usual method of dismissal from the poliboro was sudden death."

Sutton And Kling Found Guilty In \$64,000 Bank Robbery

New York, April 1 (AP) — An all-male jury today found Willie (The Actor) Sutton and Thomas (Scup) Kling guilty of \$64,000 robbery of a Queens bank two years ago.

The jury returned its verdict at 5:45 a.m. (EST) after having the case more than 10 hours.

Kling and Sutton, a notorious bank robber and jail breaker, were found guilty of counts of robbery, burglary, assault, and grand larceny.

Sutton, 51, and Kling, 45, were charged with holding up the Sunnyside branch of the Manufacturers Trust company in Queens on March 9, 1950.

Slick, Precision Job
The robbery was a slick, precision job typical of previous robberies pulled off by Sutton.

Each of the defendants faces up to 30 years in prison. Taking into account their previous records, the penalty could be considerably stiffer.

Jurors interrupted their all-night huddle at 1 a.m. and filed back into the Queens county court room for a reading of testimony by two state witnesses. Three hours later they went back into the jury room.

The panel started its deliberations about 8:30 last night. Queens county Judge Peter T. Farrell spent 90 minutes charging the jury. Sutton was serene as he waited

for the jurors' verdict. His attorney, George Washington Herz, said his client had told him: "I think the judge's charge and all, that this is the fairest trial I ever had."

Sutton and Kling were accused of pulling off the Queens bank robbery with John De Venuta, 37.

De Venuta won a separate trial at a later date by turning state's evidence and testifying against Sutton and Kling. De Venuta's testimony was the high-spot in the trial, which started two weeks ago today.

Other prosecution witnesses included bank employees who identified Sutton, Kling and De Venuta as the three bandits. The defense in cross-examination and in its direct testimony sought to shake these identifications.

Showed No Emotion
Both Sutton and Kling maintained their innocence. On the assumption that they knew nothing of the robbery, their attorneys did not call them as witnesses.

Queens county Judge Peter T. Farrell remanded the pair to jail for sentencing. No date was set.

Newsmen were the only spectators in the court room when the jury returned at 5:45 a.m.

The two defendants displayed no emotion as the jury foreman droned "guilty" four times for each defendant on counts of robbery, burglary, assault, and grand larceny.

New Group Will Try To Settle Argument On Whether Russia Is To Be Named A Neutral Nation

Seoul, Korea, April 1 (AP) — U. S. Sabre pilots today shot down 10 Communist MIG-15 fighter planes, the second highest bag for any day in the Korean war.

The U. S. Fifth Air Force said they also probably destroyed three other MIGs and damaged 10.

The greatest number of MIGs destroyed in one day in the Korean war was 13 last December 13. Fifth Air Force Sabres destroyed 10 MIGs last January 25 but that day they scored only one probable and three damaged.

In one of Tuesday's eight separate battles, Col. Francis S. Gabreski of Oil City, Pa., commander of the 51st Fighter Interceptor Wing, became the eighth U. S. jet ace by shooting down a MIG in an ambush. It raised his total for the Korean fighting to five and one-half MIGs. Five kills make an ace.

Twenty-six Sabres ambushed 16 MIGs in the action about noon just south of the Yalu river, Manchurian-Korean boundary.

"The MIGs never saw us," said Gabreski, a leading ace of World War II. "We had a perfect 'bounce' and we dived right down their tail pipes."

Maj. William H. Wescott of Terre Haute, Ind., and Capt. Ivan C. Kincheole of Cassopolis, Mich., each shot down two Red jets in the ambush.

Other kills for the day were credited to Lt. Billy D. Dobbs, Fontana, Calif.; Capt. Robert H. Moore, 1122 Voight St., Houston, Tex.; Lt. James H. Kasler, 4626 College ave., Indianapolis, Ind.; Lt. Robert W. Smith, 913 South Georgia St., Albuquerque, N. Mex., and Capt. Robert J. Love, 1227 13th St., San Bernardino, Calif.

A total of 319 MIGs and at least two of the new seldom-seen "type 15" Russian built jets were involved in the eight battles. The Allies had a little more than half that number in the air. Some of the fights lasted as long as 30 minutes. The action reached nearly seven miles up in at least one battle.

SLOW-DOWN IN ROTATION FOR YANKS IN KOREA

By STAN CARTER
 Seoul, Korea, April 1 (P)—A slow-down in rotation went into effect today for regular U. S. army soldiers and draftees in Korea.

It won't affect National Guardsmen. They must be discharged by August.

Under the new system men in the front line can expect to go home after 10 or 11 months.

Men in artillery battalions and supporting units who live in tents near the front and are fired on occasionally can go home after 13 or 14 months.

Complex System
 Those at rear headquarters of an infantry division, or in Seoul or Pusan, will be kept in Korea for about 18 months.

The new, complex, slow-down system went into effect as the 200,000th American soldier went home from Korea. He is Cpl. Freddie Leon Clark of Indianapolis.

Gen. James A. Van Fleet, commander of U. N. ground forces, said the U. S. Eighth Army's rotation system has built up a pool of combat-tested veterans in the U. S. "for our national defense."

In 21 months of Korean fighting, Van Fleet said, "the strength of approximately 11 divisions has been brought out of the combat area and dispatched to the United States."

The Eighth Army will continue to send about 20,000 soldiers home monthly under the new system. Many of these will be National Guardsmen of the 40th (Southern California) and 45th (Oklahoma) divisions. Eighth Army spokesmen said the new system was put into effect to make up for the loss of the guardsmen and because of the difficulty of getting replacements.

Beer Distributor Licenses Denied

Harrisburg, April 1 (P)—The state Liquor Control board disclosed today it has turned down 20 applicants for beer distributor licenses because of a 1951 law restricting insurance to a quota system.

A. W. Caley, director of the board's bureau of licensing, said the applications were returned with an explanation that the law now limits issuance of not more than one beer distributor's license for each 10,000 population.

"The law will undoubtedly tend to keep the number of beer distributor licenses stable," he told a newsman. "Any quota law will do that."

There are 1,622 beer distributor licenses in Pennsylvania plus 544 licenses issued to distributors who import beer. Caley said he believed the quota law will tend to increase the value of the licenses in cases where they are transferred. The board, however, has no jurisdiction in the amount of money paid to buy license rights from another.

MORRIS FACES NEW REBUFF FROM M'GRATH

Washington, April 1 (P)—Corruption hunter Newbold Morris apparently faced a new rebuff today from his nominal boss, Attorney General McGrath, amid speculation that the tensing situation would force one of them to resign.

Today is the deadline for the Justice Department to tell Morris the names and home addresses of its top officials receiving forms for reporting to him their out-of-government sources of income.

McGrath told the House judiciary subcommittee yesterday he has not filled out his own questionnaire and is not sure whether he will. He said he had not even distributed the forms delivered to his office to anyone else in the department.

McGrath openly questioned the propriety of the questions which Morris sent to 596 justice officials about outside business, gambling activity, if any, and how many fur coats there are in the family compared with five years ago.

Opposes Morris
 President Truman gave Morris the prominent cleanup job two months ago with the title "Special Assistant to the Attorney General" and McGrath still is, technically at least, Morris' immediate superior.

But the attorney general told the subcommittee, which is conducting a separate investigation of his department, that if he could back-track a little, he wouldn't appoint Morris to the cleanup job in the light of developments.

Rep. Keating (R-N. Y.), a member of the House inquiry committee, said in a radio broadcast last night that "somebody will have to yield to one side or the other—there may be some resignations in the offing."

Keating recalled that Morris had said he would ask the President to order the dismissal of anyone who refused to fill out the questionnaires. And if the President failed to back him up, Morris said he would quit.

"It is now in the President's lap as to whether he will support his cleanup man or his attorney general," Keating said.

LEADER OF REDS ANSWERS QUERY BY U. S. EDITORS

New York, April 1 (P)—Premier Stalin sent a message today to a group of American newspaper and radio editors saying a third world war is no nearer than it was two or three years ago.

The message suggested a meeting of the heads of great powers might be helpful.

It also declared the present moment opportune for the unification of Germany.

James L. Wick, chairman of the board of the Niles, Ohio, Daily Times, said two Russians delivered the message to him here today. He said it appeared to be a reply to four questions the editors had sent to Stalin.

Stalin's Replies

Wick said the questions, and the replies were:

"1. Is a third world war closer now than two or three years ago?"
 Reply: "No, it is not."
 "2. Would a meeting of the heads of the great powers be useful?"
 Reply: "Possibly it would be useful."
 "3. Do you consider the present moment opportune for the unification of Germany?"
 Reply: "Yes, I do."
 "4. On what basis is co-existence of capitalism and communism possible?"

Reply: "Peaceful co-existence of capitalism and communism is quite possible if there is a mutual desire for cooperation, if there is a readiness to fulfill the undertaken obligation, if there is observance of the principle of equality and not interference in the internal affairs of the other states."

Wick was one of 19 editors who returned by plane today from a one-month fact-finding tour of Europe. He said the editors telegraphed the questions to Stalin from Rome several weeks ago.

Manufacturer Leaves Sums For Charities

Lancaster, Pa., April 1 (P)—Jet D. Sheetz, candy manufacturer who died two weeks ago, left \$10,000 to a Somerset, Pa., hospital and \$45,000 to six Washington, D. C., institutions.

Sheetz' will—filed for probate yesterday—left the bulk of his estate, valued at upwards of \$275,000, to his widow. He also provided for gifts totaling \$28,000 to 16 individuals.

Sheetz was the son of the late Elie Sheetz, founder of the Martha Washington Candy company. The elder Sheetz was a native of Somerset county, Pa.

The fund given to the Somerset hospital was designated "for the use of the people of Berlin, Pa."

NEW ATOM TESTS START IN NEVADA

Las Vegas, Nev., April 1 (P)—Flash of fire, clearly visible in the bright daylight, signalled the start of a new series of atomic tests today.

The blast was timed at 9 a.m. (Pacific Standard Time) and apparently was an aerial burst, although its elevation could not be accurately determined by observers here.

The test ground is at Yucca Flat, in a wide desert flatland 80 miles or so northwest of this southern Nevada city.

A reddish orange sheet of flame against the horizon was visible from Las Vegas. There was no shock or sound noted immediately in Las Vegas.

BANNER SEASON PREDICTED FOR TROUT FISHERS

Harrisburg, April 1 (P)—A banner season was predicted today for Pennsylvania trout fishermen—even though the daily catch limit has been reduced.

"Anglers ought to have a great season this year," said C. A. French, executive director of the state Fish commission, "and I don't think the limit reduction will hurt anybody."

French disclosed the largest trout stocking program the state has ever undertaken is now nearing completion. "We'll have put 1 million four hundred thousand fish in the waters by the time the first line is dropped."

Season Opens April 15
The 1952 trout season opens at 5 a.m., April 15, and lasts through July 31.

A recent commission ruling reduced the daily catch per fisherman limit from 10 to eight.

The maximum number of trout a person may have in his possession at any one time is eight. The legal length—before they can be caught—remains at six inches.

Another commission spokesman said all indications point to a good year for trout fishing in 1952. "The streams are in fine shape and there ought to be a lot of fish."

Who will be the Philadelphia Phil- ells number one fisherman this season? Jim Konstanty or Andy Hansen? That's the sort of problem facing Manager Eddie Sawyer these days.

"Those two have developed a rivalry which is doing both of them good," he chuckled. "If I pitch one, the other works harder to get the next assignment."

Sawyer, for obvious psychological reasons, won't say who the number one reliever will be. Hansen didn't allow any hits in one inning of relief yesterday as the Phils dropped an 8-7 seven in- ing game to the St. Louis Cardinals.

Corpus Christi, Tex., April 1 (P)—Manager Billy Meyer of the Pitts- burger Pirates said today his pitch- ing choice for the season's opener against the Cardinals in St. Louis April 15 is little Murry Dickson.

"He won 20 games last season and I think the least I can do is give him this opening assignment. True he hasn't looked well to date."

"And off the spring pitching charts, Howie Pollet is the logical man. But I want Dickson to start. It all depends on how he looks from here on until the opener."

Corpus Christi, Tex., April 1 (P)—Manager Rogers Hornsby of the St. Louis Browns has moved Tom Wright, who didn't get a hit in his first five appearances as a pinch hitter this spring, into the cleanup batting spot.

Tom has come a long way after a slow start and currently is lead- ing the Browns' hitters with .459. "Dick Kryhoski and Hank Art are not hitting well enough for the fourth post," the Rajah explained.

11,173 Jam Hershey Stadium For Game
Hershey, Pa., April 1 (P)—Goose Tatum, the Harlem Globetrotters' "Clown Prince of Basketball," tallied 19 points to lead the New Yorkers to their third consecutive win over a college All-American club, 59-53.

A crowd of 11,173, believed a record for a basketball game at the Her- shey Sports Arena, saw the game last night. The teams played twice Sunday in New York to open their third annual touring series.

Silver-haired Alvin N. "Bo" McMillin (above), 57, whose career as a football player and coach covered almost four decades, died March 31, at his home in Bloomington, Ind. He was the hero of the famous Center College upset of Harvard in 1921 and went on to coach in college and professional ranks.

LOVELLETTE IS WHOLE SHOW AS JAYHAWKS WIN

New York, April 1 (P)—LaSalle's gritty Explorers had no formula for stopping big Clyde Lovellette, and as a result Kansas will meet the Peoria Caterpillars in the finals of the Olympic basketball trials tonight at Madison Square Garden.

Lovellette, the nearest thing to a scoring robot, stuffed 40 points through the cords last night as Kansas overcame the determined Explorers from LaSalle, 70-65, in perhaps the most thrilling game seen here this season.

In the opener, Peoria repeated its AAU title win over the Phillips Oilers by whipping the Bartlesville, Okla., club, 64-50, with surprising ease.

By winning last night, Kansas and Peoria qualified seven players each for the U.S. Olympic team which will journey to Helsinki this summer.

Fans in Madison Square Garden were given a performance by Lovellette they won't soon forget. They were comparing the 6 foot 9 giant with George Mikan and Bob Kurland—and, brother, not many players are compared with those guys.

Even the LaSalle rooters, some 4,000 strong from Philadelphia, were oooohing! and aaahing! at Lovellette's soft hook shots and clean tap-ins from under the basket. He racked up 18 field goals and four fouls.

The Explorers were forced to play without their great rebounder, Jack Moore, due to the death of his mother earlier in the day at Philadelphia.

LaSalle, a fine shooting team, zoomed to a 24-12 lead just before the first quarter ended.

But the older, more experienced Kansas refused to get rattled. They played their regular game (try to pass into Lovellette, or shoot from the outside) and by halftime cut LaSalle's margin to 40-35.

The Kansas continued to climb and with six minutes left of the final quarter, Lovellette sank a hook shot and the Jayhawkers had a 57-56 edge.

In the final minutes Lovellette scored 15 straight points for his team, to give it a 65-59 lead. Kansas held on in the closing minutes to rack up its biggest win of the season.

Fouls Prove Costly
The opener was a foul-filled contest, with Phillips losing five men—including Kurland—via the foul route. A 10-point spurge at the start of the third period iced the game for the Peoria five.

Afterwards, Kansas Coach Dr. Forrest Allen said, "I've never seen a team that was so fatigued play with so much spirit. My boys just refused to give up."

Lovellette didn't think LaSalle was the best team he's faced this season—"Those boys from Kansas State are tougher."

STRONG GIANTS MAY REPEAT AS LEAGUE VICTORS

Phoenix, Ariz., April 1 (P)—Bar- ring bad luck, the New York Giants may well score a repeat victory in the National league — without losing it so soon this year with the Brooklyn Dodgers.

Manager Leo Durocher is not going to junk his policy of making no outright pre-season predictions, but the new Leo does feel that the club is potentially stronger than last season.

The giants pitching should be solid; the batting excellent, and defensively, the prospects are good.

Filling Stanky Post
The major question mark has been the replacement of Eddie Stanky at second base, and still to be decided is the fate of army eligible outfielder Wm. Mays, the league's "rookie of the year" in 1951.

As most people realize, things can happen to a ball club, such as injuries, Leo contracting laryngitis — a lot of things that even Mr. Ruckey should appreciate, if not foresee.

Davey Williams has held the lead over Bob Hoffman in the battle for the Stanky position. A \$65,000 purchase from Atlanta three years ago. The youngster from Dallas has had good seasoning with Minneapolis and came up last fall for a final polishing with the varsity. He merely handled 85 fielding chances without an error — 1,900 per cent.

Grant admires look to the pitching staff as the brightest part of a well balanced club. Two 23-game winners, artistic Larry Jansen and Sal Maglie, head the roster.

Irvin Leads Batters
Big Jim Hearn, Max Lanier, Dave Koslo, Sheldon Jones, Al Corwin, Monte Kennedy, relief specialist George Spencer, and perhaps a rookie or two say Roger Bowman or Hoyt Wilhelm from Minneapolis, round out the array.

Monte Irvin, who batted .312 and led the league in runs knocked in with 121, heads up the batting power.

Already off to a good start is the man who wound up in such spec- ular fashion with his dramatic homerun in the playoff game with the Dodgers — Bobby Thomson. Whitey Lockman, Capt. Alvin Dark, Mags. Don Mueller, Chuck Diering from the Cardinals, all should have as good or better years.

Phoenix welcomed the Giants as the National league champions. They expect them back next spring in the same capacity — maybe even as the champions of the world.

YOUTH TO FACE MURDER TRIAL

Lampasas, Tex., April 1 (P)— Authorities were trying to decide today whether civilian or military officers would charge a young soldier in the fatal shooting yesterday of a second lieutenant.

District Atty. James K. Everts of Belton, Tex., quoted Pvt. Michael F. Kunak of Baltimore, Md., as say- ing, "I decided the best way to get out of the army was to kill a man."

Everts said Kunak made an oral statement to him, other officers and the presence of a newspaper re- porter regarding the fatal shooting of 2nd Lt. Howard Williamson, about 22, of Washington, N. C., around noon yesterday.

Williamson was shot in a Long Horn maneuvers bivouac. Witnesses said a young soldier walked into the officers' mess tent of the 82nd Air- borne Division Signal company, leveled a 30 caliber carbine at Wil- iamson and fired.

"I Was Wrong"
Then the soldier told startled of- ficers, "I don't have any more amu- nition."

Everts said Kunak told of num- erous attempts to get an army dis- charge. "I had nothing against the man," Everts quoted Kunak as saying. "There's nothing straight in my mind. I know I was wrong."

Kunak was placed in the Lam- pasas county jail by Sheriff Luther

BANKER GIVEN 6-YEAR TERM

Fairmont, W. Va., April 1 (P)— Samuel E. Swiger, 55-year-old banking executive who blamed his fate on "starvation wages," was given a six-year term in federal prison yesterday for embezzling \$30,000.

Swiger pleaded guilty in federal district court to six counts of de- frauding the Farmers and Mer- chants National bank of Cairo, W. Va., where he was vice presi- dent.

He will serve his time in the fed- eral penitentiary at Lewisburg, Pa. His attorney made no request for probation.

Judge Harry E. Watkins passed five-year sentences on each of three counts, to run concurrently, and one-year terms on the other three charges, also to run concur- rently.

Swiger is married and has two children. He disappeared Febru- ary 13 while examiners were mak- ing a routine check of the bank's books. After surrendering at Clarksville, W. Va., 12 days later he told FBI agents he had gone to Chicago and lived in hotels under an assumed name.

He returned to West Virginia after his conscience started bot- tering him, Swiger declared. At the time of his surrender Swiger blamed his troubles on "starvation wages throughout my 25 years in the banking business."

NEGOTIATORS WILL RESUME STEEL TALKS

New York, April 1 (P)—Union leaders waited today for steel in- dustry officials to signal the start of new wage talks to avert a steel strike threatened for April 8.

Negotiations were to have started yesterday. They were postponed at the request of the steel company officials, who said they hoped to be ready today to meet with dele- gates of the CIO United Steel- workers.

CIO President Philip Murray, who also heads the steel union, said he expected the bargaining sessions to start today at a time to be speci- fied.

Representatives of six major steel companies are here to negotiate with the union. The two sides are deadlocked over a Wage Stabiliza- tion Board report recommending a 17½-cent-an-hour wage boost.

Also recommended by the WSB are fringe benefits worth an esti- mated five cents an hour, plus a union shop that eventually would force every steelworker into the CIO union.

Demand Full Program
Present average steel wages are about \$1.88 an hour.
The union is demanding the full WSB program, which has been angrily denounced by the industry.

John A. Stephens, vice president of the United States Steel corpora- tion, announced the postponement yesterday. He said the talks had been delayed "temporarily pending further developments."

Stephens declined to elaborate. One report was that the industry representatives were re-examining their position following the sudden resignation over the week-end of Defense Mobilizer Charles E. Wilson.

Wilson said yesterday in Wash- ington that a 30-day steel strike would set back U. S. mobilization by 60 days.

Baseball Training Camp Briefs

St. Petersburg, Fla., April 1 (P)—

Jerry Coleman, New York Yankees' second-baseman who has been recalled to the marine corps, will leave for Jacksonville today for his physical examination.

He's stay overnight, then report tomorrow to the navy air base about 15 miles outside the city, along with Ted Williams, the Boston Red Sox slugger, who also has been called back.

"I don't know if they'll tell us immediately if we have passed the exam," commented Coleman.

Macon, Ga., April 1 (P)—The Philadelphia Athletics are off for the north and a 10-game barnstorming tour today—but Manager Jimmy Dykes isn't too happy about the trip.

Dykes' main complaints is that the A's will be facing nothing but minor league competition—and he doesn't think it will do the team one bit of good. He feels that when the A's met the Phillies in the Philadelphia city series April 12-13, the National league team will "look like speed demons after all this."

Jacksonville, Fla., April 1 (P)—Who will be the Philadelphia Phillies number one fireman this season? Jim Konstanty or Andy Hansen? That's the sort of problem facing Manager Eddie Sawyer these days.

"Those two have developed a rivalry which is doing both of them good," he chuckled. "If I pitch one the other works hard to get the next assignment."

Sawyer, for obvious psychological reasons, won't say who the number one reliever will be. Hansen didn't allow any hits in one inning of relief yesterday as the Phillies dropped an 8-7 seven inning game to the St. Louis Cardinals.

Corpus Christi, Tex., April 1 (P)—Manager Billy Meyer of the Pittsburgh Pirates said today his pitching choice for the season's opener against the Cardinals in St. Louis April 15 is little Murry Dickson.

"He won 20 games last season and I think the least I can do is give him this opening assignment. True he hasn't looked well to date. "And off the spring pitching charts, Howie Pollet is the logical man. But I want Dickson to start. It all depends on how he looks from here on until the opener."

Corpus Christi, Tex., April 1 (P)—

Manager Rogers Hornsby of the St. Louis Browns has moved Tom Wright, who didn't get a hit in his first five appearances as a pinch hitter this spring, into the cleanup batting spot.

Tom has come a long way after a slow start and currently is leading the Browns' hitters with 459. "Dick Kryhoski and Hank Arft are not hitting well enough for the fourth post," the Rajah explained.

11,173 Jam Hershey Stadium For Game

Hershey, Pa., April 1 (P)—Goose

Tatum, the Harlem Globetrotters' "Clown Prince of Basketball," tallied 19 points to lead the New Yorkers to their third consecutive win over a college All-American club, 59-53.

A crowd of 11,173, believed a record for a basketball game at the Hershey Sports Arena, saw the game last night. The teams played twice Sunday in New York to open their third annual touring series.

The All-Americans, led by Mark Workman of West Virginia, kept up with the Globetrotters for one period but after that the Globetrotters scored at will. The half-time score was 31-23 in favor of the New Yorkers.

Workman topped the scoring with 24 points.

BANNER SEASON PREDICTED FOR TROUT FISHERS

Harrisburg, April 1 (P)—A banner season was predicted today for Pennsylvania trout fishermen—even though the daily catch limit has been reduced.

"Anglers ought to have a great season this year," said C. A. French, executive director of the state Fish commission, "and I don't think the limit reduction will hurt anybody."

French disclosed the largest trout stocking program the state has ever undertaken is now nearing completion. "We'll have put 1 million four hundred thousand fish in the waters by the time the first line is dropped."

Season Opens April 15

The 1952 trout season opens at 5 a.m., April 15, and lasts through July 31.

A recent commission ruling reduced the daily catch per fisherman limit from 10 to eight.

The maximum number of trout a person may have in his possession at any one time is eight. The legal length—before they can be caught—remains at six inches.

Another commission spokesman said all indications point to a good year for trout fishing in 1952. "The streams are in fine shape and there ought to be a lot of fish."

Sports Roundup

By GAYLE TALBOT

Los Angeles, April 1 (P)—Whatever else may be said for Ty Cobb's recent magazine flogging of modern baseball players, it at least may be said for certain that the old Georgia Peach's outburst has supplied the principal topic of conversation within the fraternity for the past couple of weeks.

We've heard him blasted as a soured eccentric whom the world has passed by and we've heard some smart baseball men, both of Ty's generation and the present one, firmly support his contention that the game and its players have gone plumb to the dogs. But we haven't in a single baseball gathering heard him ignored. They couldn't ignore him when he was a great star, and they still can't.

Those who played with or against Cobb appear still to be fascinated by the memory and, whether they liked him mildly or hated him intensely, as many of them undoubtedly did, they love to talk about him and to recall incidents from his fiery career. We must have heard a score lately that were new, at least to us, and they all were good.

A Fearless Man

Ever hear about the time he came into the clubhouse bleeding about the face and ears and with his shirt half ripped off? He began to change into his uniform and one of his teammates asked him what had happened, possibly hoping for the worst. "Nothing much," Ty replied, "I just got tired waiting to get into the phone booth outside and so I reached in and yanked this fellow out by the collar. Turned out he had done a lot of professional fighting. He was real good."

Whether they liked him or not, they concede that Cobb was a fearless man, either on or off the field, and that he would fight any man who crossed him.

An Oldtimer's View

From an oldtimer:
"Once the Philadelphia fans were so sore at him about something he had done that eight or 10 cops escorted him into the park. There had been a lot of threats on his life. Once they were inside the park, old Ty shook off his escort and stepped grandly up to the plate to take his batting licks, shoving a teammate out of the way, incidentally. Then he turned to the crowd and told them what he thought of them, both with words and gestures. He was a brave man."

As near as it is possible to generalize, most of those who played in Cobb's day agree, perhaps naturally, that there were more great players among the old bunch than there are today and that "inside" baseball as they played it is a thing of the past. They are not sure, though, that Ty was wise to come out punching quite the way we did.

McSherrystown Drops For Pen-Mar League

There is a strong likelihood the

Pen-Mar Baseball league may be forced to operate as a seven-team organization this year as the result of an announcement that McSherrystown will not enter a team this year.

Claude E. Wagaman, president of the team, announced Monday that he is retiring and notified the league that McSherrystown would not enter the circuit.

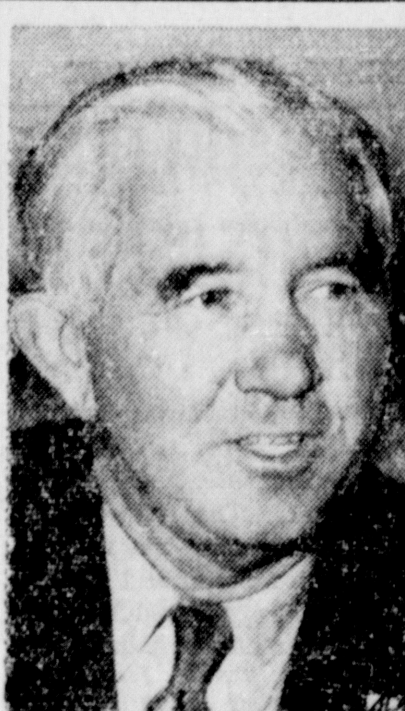

Unless a sponsor comes forward in the near future, it is probable that McSherrystown will not be represented on the diamond this season.

LOVELLETTE IS WHOLE SHOW AS JAYHAWKS WIN

New York, April 1 (P)—LaSalle's

gritty Explorers had no formula for stopping big Clyde Lovellette, and as a result Kansas will meet the Peoria Caterpillars in the finals of the Olympic basketball trials tonight at Madison Square Garden.

Lovellette, the nearest thing to a scoring robot, stuffed 40 points through the cords last night as Kansas overcame the determined Explorers from LaSalle, 70-65, in perhaps the most thrilling game seen here this season.

In the opener, Peoria repeated its AAU title win over the Phillips Oilers by whipping the Bartlesville, Okla., club, 64-50, with surprising ease.

By winning last night, Kansas and Peoria qualified seven players each for the U.S. Olympic team which will journey to Helsinki this summer.

Fans in Madison Square Garden were given a performance by Lovellette they won't soon forget. They were comparing the 6 foot 9 giant with George Mikan and Bob Kurland—and, brother, not many players are compared with those guys.

Even the LaSalle rooters, some 4,000 strong from Philadelphia, were cooing! and aaahing! at Lovellette's soft hook shots and clean tap-ins from under the basket. He racked up 18 field goals and four fouls.

The Explorers were forced to play without their great rebounder, Jack Moore, due to the death of his mother earlier in the day at Philadelphia.

LaSalle, a fine shooting team, zoomed to a 24-12 lead just before the first quarter ended.

But the older, more experienced Kansans refuse to get rattled. They played their regular game (try to pass into Lovellette, or shoot from the outside) and by half-time cut LaSalle's margin to 40-35.

The Kansans continued to climb and with six minutes left of the final quarter, Lovellette sank a hook shot and the Jayhawkers had a 57-56 edge.

In the final minutes Lovellette scored 15 straight points for his team, to give it a 65-59 lead. Kansas held on in the closing minutes to rack up its biggest win of the season.

Fouls Prove Costly

The opener was a foul-filled contest, with Phillips losing five men—including Kurland—via the foul route. A 10-point spurge at the start of the third period iced the game for the Peoria five.

Afterwards, Kansas Coach Dr. Forrest Allen said, "I've never seen a team that was so fatigued play with so much spirit. My boys just refused to give up."

Lovellette didn't think LaSalle was the best team he's faced this season—"Those boys from Kansas State are tougher."

Ken Loeffler, LaSalle's coach, said, "I'm tired of big men. If Moore had been in there we would have got more rebounds."

Norm Grekin led the LaSalle scorers with 20 points, mostly on twisting, driving one-handers. Fred Lehle had 19 and Tom Gola 15 for the losers.

STRONG GIANTS MAY REPEAT AS LEAGUE VICTORS

By BOB MYERS

Phoenix, Ariz., April 1 (P)—Barring bad luck, the New York Giants may well score a repeat victory in the National league — without slicing it so thin this year with the Brooklyn Dodgers.

Manager Leo Durocher is not going to junk his policy of making no outright preseason predictions, but the new Leo does feel that the club is potentially stronger than last season.

The giants pitching should be solid; the batting excellent, and defensively, the prospects are good.

Filling Stanky Post

The major question mark has been the replacement of Eddie Stanky at second base, and still to be decided is the fate of army eligible outfielder Willie Mays, the league's "rookie of the year" in 1951.

As most people realize, things can happen to a ball club, such as injuries, Leo contracting laryngitis—a lot of things that even Mr. Rickey should appreciate, if not foresee.

Davey Williams has held the lead over Bob Hoffman in the battle for the Stanky position. A \$65,000 purchase from Atlanta three years ago. The youngster from Dallas has had good seasoning with Minneapolis and came up last fall for a final polishing with the varsity. He merely handled 85 fielding chances without an error — 1,000 per cent.

Giant admirers look to the pitching staff as the brightest part of a well balanced club. Two 23-game winners, artistic Larry Jansen and Sal Maehle, head the roster.

Irvin Leads Batters

Big Jim Hearn, Max Lanier, Dave Kozlo, Sheldon Jones, Al Corwin, Montia Kennedy, relief specialist George Spencer, and perhaps a rookie or two, say Roger Bowman or Hoyt Wilhelm from Minneapolis, round out the array.

Monte Irvin, who batted .312 and led the league in runs knocked in with 121, heads up the batting power.

Already off to a good start is the man who wound up in such spectacular fashion with his dramatic homerun in the playoff game with the Dodgers—Bobby Thomson. Whitey Lockman, Capt. Alvin Dark, Mays, Don Mueller, Chuck Diering from the Cardinals, all should have as good or better years.

Phoenix welcomed the Giants as the National league champions. They expect them back next spring in the same capacity — maybe even as the champions of the world.

YOUTH TO FACE MURDER TRIAL

Lampasas, Tex., April 1 (P)—

Authorities were trying to decide today whether civilian or military officers would charge a young soldier in the fatal shooting yesterday of a second lieutenant.

District Atty. James K. Evetts of Belton, Tex., quoted Pvt. Michael F. Kunak of Baltimore, Md., as saying, "I decided the best way to get out of the army was to kill a man."

Evetts said Kunak made an oral statement to him, other officers and the presence of a newspaper reporter regarding the fatal shooting of 2nd Lt. Howard Williamson, about 22, of Washington, N. C., around noon yesterday.

Williamson was shot in a Long Horn maneuvers bivouac. Witnesses said a young soldier walked into the officers' mess tent of the 82nd Airborne Division Signal company, leveled a 30 caliber carbine at Williamson and fired.

"I Was Wrong"

Then the soldier told startled officers, "I don't have any more ammunition."

Evetts said Kunak told of numerous attempts to get an army discharge. "I had nothing against the man," Evetts quoted Kunak as saying, "There's nothing straight in my mind. I know I was wrong."

Kunak was placed in the Lampasas county jail by Sheriff Luther

Jersey Joe Walcott (left), heavyweight champion, squares off against Ezzard Charles, former titleholder, after they signed in Philadelphia for a 15-round title fight in Philadelphia's Municipal Stadium June 5. Charles lost the title to Walcott in 1951. (AP Wirephoto)

BANKER GIVEN 6-YEAR TERM

Fairmont, W. Va., April 1 (P)—

Samuel E. Swiger, 53-year-old banking executive who blamed his fate on "starvation wages," was given a six-year term in federal prison yesterday for embezzling \$30,000.

Swiger pleaded guilty in federal district court to six counts of defrauding the Farmers and Merchants National bank of Cairo, W. Va., where he was vice president.

He will serve his time in the federal penitentiary at Lewisburg, Pa. His attorney made no request for probation.

Judge Harry E. Watkins passed five-year sentences on each of three counts, to run concurrently, and one-year terms on the other three charges, also to run concurrently.

Swiger is married and has two children. He disappeared February 13 while examiners were making a routine check of the bank's books. After surrendering—at Clarksburg, W. Va., 12 days later he told FBI agents he had gone to Chicago and lived in hotels under an assumed name.

He returned to West Virginia after his conscience started bothering him, Swiger declared. At the time of his surrender Swiger blamed his troubles on "starvation wages throughout my 25 years in the banking business."

Today's Talk

By GEORGE MATTHEW ADAMS

YOU CAN BE HAPPY

Ever since the world began human beings have been searching for personal happiness. There have been endless theories proposed for its attainment, but the simplest and surest is none other than this: "Lend yourself to others! There is no such thing as selfish happiness." The Good Samaritan, in the Bible story, found happiness beside the road in a fellow creature who had fallen among thieves. Others had seen the prone man in trouble, but passed him by. Not so that one who saw an opportunity to serve. What a thrill of happiness must have passed through the mind of that kindly man who did what he would have liked someone else to have done for him, under the same circumstances. He demonstrated the practical application of the Golden Rule. That always brings happiness.

Thoreau found peace, beauty and inspiration at Walden Pond, and then he distributed that discovery of joy that has brought an appreciation of nature and her immortal truths to millions of human beings all over the world. Gandhi was inspired by the revelations of Thoreau.

We create our own happiness within us, but the extract must come from what we plant in others. The farmer gets his abundant harvest, but first he must plant the seeds in the good earth. None of us can live to ourselves alone, if we hope for happiness. We must continually be giving and sharing of our own selves and our gains.

I can understand why it is that naturalists are such happy people. They live in a world of beauty, revelations, mysteries and discoveries. Every insect or animal is busy. The birds sing out their happiness. We can relax and wonder in the great out-of-doors. Nature is forever giving. It takes nothing from us. And if we are watchful we can learn lessons in nature that a great library of books could not teach us so well.

If you would be superlatively happy, see how much of your substance and yourself you can give away without missing anything!

Tomorrow Mr. Adams will talk on the subject: "The Open Mind."

Just Folks

APRIL FOOL

I've downed my share of salted tea. For Mr. Fox I've phoned the zoo. Today in what occurs to me I'm sure there will be nothing new. And should I kick an old silk hat. Against a brick to bruise my toe. I'll say when first I fell for that. Was nearly fifty years ago.

I'll give to all these tales belief: "Your coat is torn! Your shoe's untied!" Or, "You have dropped your handkerchief!" And laugh when, "April fool!" is cried.

Should I be told a tire is flat, Concerned, I'll rush outside to see. The first time that I fell for that. Was back in nineteen thirty-three.

I'll stoop to get the purse once more. That suddenly is snatched away. I've done that many times before. It's just a trick they like to play. I know their pranks. In one and all.

By long experience I'm schooled. But willingly for them I'll fall. I'm rather fond of being fooled.

23 HARDENED JERSEY "CONS" QUIT RIOTING

Trenton, N. J., April 1 (AP) — Twenty-three of the most hardened convicts in New Jersey state prison surrendered to their keepers last night after a 45-hour display of defiance and violence.

Sullen, hungry and cold, they trooped singly from a three-story segregation building they had all but gutted in a desperate bid for privileges they said were denied them.

Killers, thugs and sex offenders, the gang had been placed in the building with 22 other to keep them from mingling with the prison's 1,200 other inmates.

Trustees Held Captive
Early Sunday morning, a riot broke out in the building. Somehow, yet unexplained, the men smashed cell doors, ripped out plumbing, set mattresses afire, broke up beds and demanded better treatment.

Six prisoners assigned trusty posts in the building were held captive. Prison guards lobbed tear gas grenades into the building, but they had no effect. By dawn a detachment of state police was on hand and the show of force convinced 22 to surrender.

The others held out. They kept the trusty group prisoner. They threw plumbing equipment into an exercise yard. They fashioned weapons out of lead pipe and electric cables. They defied prison guards to come in and get them.

Used Water, Tear Gas
The gang pined their keepers who stood in the yard and shouted complaints about food and medical treatment. Warden William Cary refused to talk to them until they named a spokesman. The spokesman asked that someone from outside the prison arbitrate the convicts' demands. Cary refused.

Two Trenton fire trucks pumped heavy streams of water into the building for two hours. The convicts huddled against walls to avoid the water.

More tear gas was hurled into the building by prison guards. But the gas floated away harmlessly through broken windows.

"We're going to avoid bloodshed," said Cary.

No One Injured
By nightfall, the convicts were bickering with Cary. They reduced their demands. Cary gave no ground.

"They wanted us to make some promises, but we would not," said state commissioner of institutions and agencies Sanford Bates. Bates, under whose direction all prisons in the state operate, said the men decided to release the trusty group. Finally, after more bickering, the holdup convicts gave up.

The convicts will be "properly dealt with after they are checked through the hospital," said Bates, who added that no one was injured.

MOTORCYCLE CLUB OPENS RACING SUNDAY

The 108 members of the Happy Ramblers Motorcycle club of McSherrystown will hold their first race of the season Sunday afternoon at the track maintained by the club along the Gettysburg-Hanover road near Brushtown.

With the 1952 season about to begin, club members are hoping to repeat again their record of last year when they won a banner for having traveled a total of 40,000 miles without an accident. The banner was presented by the American Motorcycle association.

Trophies were recently presented to members of the club having the highest number of points for participation in various events. AMA awards went to Russell J. Baker, Fairfield, first, and Howard J. Brown, Jr., Gettysburg, second. Mrs. Howard J. Brown was awarded the club prize for the woman member with the highest number of points for club activities. Competition prizes went to James Klunk, McSherrystown, first place, and John Wentz, Hanover, second. The club

has membership from communities within 15 miles of McSherrystown in York and Adams counties and in Maryland.

Maurice Worley, Littlestown, president of the club, said members of the club own 78 motorcycles. Because of the large membership of the club, he added, as a safety measure, the club no longer conducts tours in which all members participate at one time. Instead various tours are held so that the members of motorcycles in a group is kept small. One of the longest trips held by the club was a tour to Florida.

The club is one of 1,182 in the American Motorcycle association.

THE KITCHEN TABLE THAT DISAPPEARS

Universal GAS RANGE
presents the new exclusive
Wheel-about
extra table-top Storage Cart

In the large kitchen—a cart
Take it out of the range and wheel it to any part of the kitchen . . . to the back door to receive the heavy delivery items . . . then to the refrigerator and cupboards, to put everything away in one trip . . . then back to the range.

In the small kitchen—a table
Just pull the Wheel-about barely out of the range and use it right there for preparing food or for just "serving things down." This is the feature that gives "Extra Table-Top" to the range itself. Runs in and out on a track. Cannot knock against range.

Wheel-about's Top—a cutting board
Hard maple, so pieced together as to prevent warping. Fits into top of cart, lifts out easily for taking to sink. Think of a real solid cutting board that you can use right at the range! Underneath is a drawer for kitchen tools, and shelves for utensils.

Vanishes—when not in use!
Wheel-about glides on four rubber-tired ball-bearing wheels. When not in use as a cart or a table, it disappears into the section usually devoted to service drawers, and becomes part of the range itself! Twice the usable capacity of conventional drawers.

the Famous MARLBORO Model

. . . was chosen to introduce this revolutionary use of the storage space next to the oven and broiler. Sturdiness, insulation, beauty . . . but above all, *sheer cooking dependability* . . . are ascribed to this model by the women of America.

By all means . . . see this sparkling, exciting new gas range now at your Gas Appliance Dealer's or Gas Company Office.

MOTORCYCLE CLUB OPENS RACING SUNDAY

The 108 members of the Happy Ramblers Motorcycle club of McSherrystown will hold their first race of the season Sunday afternoon at the track maintained by the club along the Gettysburg-Hanover road near Brushtown.

With the 1952 season about to begin, club members are hoping to repeat again their record of last year when they won a banner for having traveled a total of 40,000 miles without an accident. The banner was presented by the American Motorcycle association.

Trophies were recently presented to members of the club having the highest number of points for participation in various events. AMA awards went to Russell J. Baker, Fairfield, first, and Howard J. Brown, Jr., Gettysburg, second. Mrs. Howard J. Brown was awarded the club prize for the woman member with the highest number of points for club activities. Competition prizes went to James Klunk, McSherrystown, first place, and John Wentz, Hanover, second. The club

has membership from communities within 15 miles of McSherrystown in York and Adams counties and in Maryland.

Maurice Worley, Littlestown, president of the club, said members of the club own 78 motorcycles. Because of the large membership of the club, he added, as a safety measure, the club no longer conducts tours in which all members participate at one time. Instead various tours are held so that the members of motorcycles in a group is kept small. One of the longest trips held by the club was a tour to Florida.

The club is one of 1,182 in the American Motorcycle association.

TRUMAN APPEAL TO COMMON MAN BIG ADVANTAGE

By HAL BOYLE
New York (AP)—How will history rate Harry S. Truman, who has staked out a "For Rent" sign on the White House?

When the partisan din of our times dies away, the chances are he will be allotted a greater niche than many of his critics now suspect.

This little man of big surprises may rank as the most warmly human president since Abraham Lincoln. For surely one of the greatest sources of his appeal has been the fact he looked and talked so much like the average citizen.

His great office was thrust upon him unexpectedly, and any American could look at his picture and say, "Why, the same lightning might have struck me." That was a big advantage to him—any voter could imagine himself being put in Harry's spot.

Even in his act of voluntarily removing himself from the 1952 presidential race—the latest of many unpredictable acts—some people are sure to say, "Well, there's a man that finally listened to his wife." And they will feel they understand him even better.

If he now goes on and steps out of the political scene altogether, his final stature in the story of our nation will begin to emerge more clearly. The small legends of leadership will cluster around his name and fame, molding him into the pattern that after generations will know.

Loyal To Friends
How will they remember Harry? They will remember him as a man who would rather be senator than president, and would rather be a medal of honor winner than either.

They will remember him as a man who could pitch a baseball with either hand and look in a horse's mouth and tell its age.

They will remember him as a man who helped his wife dry the dishes and insisted that she edit all his speeches.

They will remember him as a man who went broke in business, spent 20 years clearing off his \$20,000 debts, and went on to spend more money than any other peacetime president in history.

They will remember him as a man who assumed his high office with a feeling of unpreparedness, but who went on to make vast decisions of breath-taking boldness.

They will remember him for his fantastic, stubborn loyalty to his friends—and be in more of a position to judge whether that was a virtue or a defect.

They will remember him as one who rose personally unstained from a corrupt political machine to practice the trade of professional politician with an art probably unmatched since Lincoln.

Underrated By Enemies
Historians are sure to write of him as a man less simple than he seemed, and they will label as the greatest mistake of his enemies the error they made of consistently low-rating his profound knowledge of people in the mass.

"That boy could plow the straightest row of corn in the county," his mother once said of Truman. "He was a farmer who could do everything there was to do just a little better than anyone else."

But he himself said:
"I've worked hard all my life. That's the only recipe for success I know."

Truman has always been proud of being a professional politician. How would he himself like best to be remembered—this man who called the White House "the finest prison in the world."

The key can probably be found in two statements he made during his presidency.

"Government is politics and in the hands of able and honest politicians government is likely to prosper. So many men who have been attacked as politicians while they were alive have gained fame after their deaths that I think the best description of a statesman is a dead politician."

Nothing in my life amounts to anything but world peace. That is all I am working for.

But it is too early to determine yet how Harry Truman will be remembered. For the issues of his lifetime are still undecided.

Trenton, N. J., April 1 (AP)—A girl, a soldier and a teen-age boy drowned last night in an automobile that veered off John Fitch way, bumped over a barrier and plunged into the Delaware river.

Another boy riding in the car crawled through a window of the sinking vehicle and floated to the surface where he was sighted and rescued from the bank.

Harrisburg, April 1 (AP)—The price of milk went down one-half a cent a quart to 22 1/2 cents in the Philadelphia milk marketing area today. Prices remained unchanged in other areas.

The decrease was ordered by the state Milk Control commission to match a drop in wholesale prices ordered by the federal government. The wholesale price was rolled back 40 cents a hundred-weight (40 1/2 quarts) to \$5.84 in Philadelphia and \$5.69 in suburban Philadelphia.

Harrisburg, April 1 (AP)—The state Mines department today approved a new-type plug for confining explosives to boreholes in coal-mine blasting operations. Richard Maize, state mines secretary, said the device has been tested extensively in the anthracite region and found satisfactory.

Maize emphasized however that the plug may be used only with permissible explosives (those with small flame and of short duration). The device has also been approved by the U. S. Bureau of Mines on the same basis.

After a moment's pleased inspection, the average man would pass up this picture.

But not the average woman! She sees what the man misses: a fascinating new accessory—the "glove stole." With hat to match!

No matter where she first picks up such news tidbits—about clothes, food, beauty, home decorating—only the newspaper has the answers to her questions "Where can I get it? For how much?"

So she watches the newspaper every day.

Sometimes she has a definite purchase in mind—a new rug, or refrigerator, or top-coat for Daddy.

Often she simply has a mental drawer full of half-conscious wants—anything from a new frozen food to a folding terrace tea table.

Like men, women have found from experience that if they miss a single issue of the local paper, they miss something important.

So you read a newspaper every day—and so does everybody else. . . . This is true of no other form of communication.

If you're selling something that's advertised, make sure it's advertised to all the people in town who can possibly buy.

Out of the raw material of life in your town, the newspaper editor creates his paper fresh every day to appeal to everybody. Not just comedy fans, or mystery fans, or sports fans—but everybody. This is true in no other form of communication.

Just as you read the paper now, all your customers and prospects read the paper too—at the time they choose, for as long as they choose—for the advertising as well as for fun or news.

Is it any wonder that advertisers today invest far more of their money in newspapers than in any other form of advertising?

Only the newspaper is first with the most news... first with the most people... first with the most advertisers!

TEACHER FIRED, TWO MORE QUIT ON OATH ISSUE

Gettysburg, April 1 (P) — One Pennsylvania school teacher was fired for refusing to take the commonwealth's loyalty oath as the new law became fully effective today.

Two other teachers quit their jobs rather than take the oath and a prominent municipal employee in Philadelphia quit his job in protest after signing the oath.

Some 250,000 state and local government employees, including school teachers, took the oath during the month of March affirming that they are not subversives nor members of a subversive organization. March 31 was the last day to take the oath.

Dean's Son Fired
Dismissed from his job for refusal to take the oath was Eugene Leroy Mercer, Jr., son of the dean of physical education at the University of Pennsylvania.

Mercer said he had been "dismissed by law" as a sixth and seventh grade teacher at Mahoning Township school, Montour county. He lives at Millville, Columbia county.

A representative of the Mahoning Township school board said it was felt Mercer was loyal but that since he wouldn't comply with the law there was no alternative but to dismiss him.

Mercer, a native of Swarthmore, Pa., and a Quaker, served a noncombatant duty in World War II as a conscientious objector.

Another teacher, Paul W. Goulding, gave up his post at Nazareth, Pa., high school, because of what he termed religious objections to

taking an oath. The third teacher gave up his position with a Philadelphia suburban school system rather than take the oath.

Signed And Quit
Hans Blumenfeld, chief of the Philadelphia Planning Analysis division, signed the oath but still gave up his job. He said he objected to being "placed in the category of second class citizens who are denied freedom of thought and expression because they are in public service."

"I value first class citizenship higher than my job," he declared. Blumenfeld, who had been with the City Planning commission since 1945 and served as director of research for the Philadelphia-Housing association prior to that, said he was in "full agreement with the word and the declared purposes of the act." In his letter of resignation he pledged himself to "redouble" his activities as a member of the American Civil Liberties union and the board of directors of the Pennsylvania Civil Rights Congress.

Mercer issued a statement declaring: "This law helps create an atmosphere of mistrust amongst us which inhibits complete freedom of discussion. We must have this freedom; if we are to boldly seek out a peaceful solution of the conflict with Communists. The law widens the gulf between us and the Communists. We must have faith in the processes of democracy."

Barrow, Alaska, April 1 (P) — Nine stranded men were snatched from the Arctic ice pack and landed here safely by their navy rescue plane Monday night. The plane rescued the seven navy men and two civilian scientists from their four-day isolation and brought them to a safe landing at this northernmost tip of Alaska at 8:30 p.m. (1:35 a.m. EST).

TEACHER FIRED, TWO MORE QUIT ON OATH ISSUE

Harrisburg, April 1 (P) — One Pennsylvania school teacher was fired for refusing to take the Commonwealth's loyalty oath as the new law became fully effective today.

Two other teachers quit their jobs rather than take the oath and a prominent municipal employee in Philadelphia quit his job in protest after signing the oath.

Some 250,000 state and local government employees, including school teachers, took the oath during the month of March affirming that they are not subversives nor members of a subversive organization. March 31 was the last day to take the oath.

Dean's Son Fired
Dismissed from his job for refusal to take the oath was Eugene Leoy Mercer, Jr., son of the dean of physical education at the University of Pennsylvania.

Mercer said he had been "dismissed by law" as a sixth and seventh grade teacher at Mahoning Township school, Montour county. He lives at Millville, Columbia county.

A representative of the Mahoning Township school board said it was felt Mercer was loyal but that since he wouldn't comply with the law there was no alternative but to dismiss him. Mercer, a native of Swarthmore, Pa., and a Quaker, served a noncombatant duty in World War II as a conscientious objector.

Another teacher, Paul W. Goulding, gave up his post at Nazareth, Pa., high school, because of what he termed religious objections to

taking an oath. The third teacher gave up his position with a Philadelphia suburban school system rather than take the oath.

Signed and Quit
Hans Blumenfeld, chief of the Philadelphia Planning Analysis division, signed the oath but still gave up his job. He said he objected to being "placed in the category of second class citizens who are denied freedom of thought and expression because they are in public service."

"I value first class citizenship higher than my job," he declared. Blumenfeld, who had been with the City Planning commission since 1945 and served as director of research for the Philadelphia Housing association prior to that, said he was in "full agreement with the word and the declared purposes of the act." In his letter of resignation he pledged himself to "redouble" his activities as a member of the American Civil Liberties union and the board of directors of the Pennsylvania Civil Rights Congress.

Mercer issued a statement declaring: "This law helps create an atmosphere of mistrust amongst us which inhibits complete freedom of discussion. We must have this freedom if we are to boldly seek out a peaceful solution of the conflict with Communists. The law widens the gulf between the law and the Communists. We must have faith in the processes of democracy."

Barrow, Alaska, April 1 (P) — Nine stranded men were snatched from the Arctic ice pack and landed here safely by their navy rescue plane Monday night. The plane rescued the seven navy men and two civilian scientists from their four-day isolation and brought them to a safe landing at this northernmost tip of Alaska at 8:30 p.m. (1:35 a.m. EST).
